SUMMARY

I'm a **web engineer** with intense focus on web and mobile development. I have a strong interest in client-side architecture. Coding is my passion (particularly in JavaScript & TypeScript). Interested in experimental technologies, user experience and cross-platform development.

I have worked on a variety of **languages** (JavaScript, C#, Typescript, CoffeeScript, Node.js, C, Java, PHP, SQL, PLSQL), **frameworks** (.NET, Spring, GDK, XNA, SAP R/3...) and **operating systems** (Mac OS X, Windows, Linux, Android and iOS). I have **strong coding and debugging skills**. My current focus is single-page applications (SPA), architecture, web apps and cross-platform hybrid apps.

Experienced **defining and managing agile UX processes**. Trained, coached and managed remote and local teams to encouraging self-organization, come up with reusable elements, use the best practices, provide visibility to team impediments/risks, help to come up with quality shippable product that meet the product goals and provides a great user experience.

SKILLS

- ✓ JavaScript & TypeScript
- ✓ MV* Frameworks
- ✓ JS Architecture
- ✓ JS Performance
- ✓ Design Patterns
- ✓ SOA & REST
- ✓ C# & ASP MVC
- ✓ ORM (NHibernate & Entity Framework)
- ✓ Test automation (TDD & BDD)
- ✓ CI (Jenkins & TravisCI)

- ✓ UX & ALM (Jira)
- ✓ Agile (Scrum)
- ✓ HTML5 & CSS3
- ✓ Responsive Design
- ✓ Node.js & MongoDB
- ✓ SQL (MSSQL & PLSQL)
- ✓ Automation (Gulp & Grunt)
- ✓ Windows Azure
- ✓ Xamarin (iOS and Android)

WORK EXPERIENCE

- **Web engineer & CEO** (Mean Stack) @ WolkSoftware.com	March 2014
- **Lead UX engineer** (Microsoft Stack) @ MoneyMate Limited	July 2013
- **Web engineer** (Microsoft Stack) @ MoneyMate Limited	March 2012
- **Web engineer** (Microsoft Stack) @ Club Travel Limited	March 2011
- **Web engineer** (Java Stack) @ Guadaltech	September 2010
- **Web engineer intern** (LAMP Stack) @ Lucca Leadership	May 2010

PUBLICATIONS

- **Author** of *Learning TypeScript* (ISBN 9781783985548)	2015
- **Technical** *Reviewer of Mastering TypeScript* (ISBN 9781784399665)	2015

OPEN-SOURCE PROJECTS, PORTFOLIO, BLOG & MORE

I'm the organizer of the Dublin TypeScript "meetup" and the creator of InversifyJS (Inversion of control container for TypeScript and JavaScript applications) and AtSpy (standalone test spies for TypeScript and JavaScript applications). I write at blog.wolksoftware.com about JavaScript, TypeScript and web development, I contribute to other open-source projects at GitHub (username remojansen) and help other developers at StackOverflow (username ower-reloaded). If you want to see some of my work as web designer please visit my portfolio at www.remojansen.com.

EDUCATION & TRAINING

Google Analytics Platform Principles (Online course) @ Analytics Academy	2014
Xamarin Certified Mobile Developer (Online course) @ Xamarin University	2014
Xamarin Certified iOS Developer (Online course) @ Xamarin University	2014
Xamarin Certified Android Developer (Online course) @ Xamarin University	2014
Microsoft certified professional developer (MCPD) @ New Horizons	2013
Introduction to databases (Online course) @ Stanford university	2011
Certificate in ASP.NET (Online course) @ ETICOM Corporate University	2011
Certificate in JavaScript (Online course) @ ETICOM Corporate University	2011
Certificate in Spring Framework (Online course) @ ETICOM Corporate University	2010
Certificate in Hibernate Framework (Online course) @ ETICOM Corporate University	2010
Certificate in AJAX (Online course) @ ETICOM Corporate University	2010
Certificate in Joomla! @ US School of Computer Science	2009
Certificate in Linux Server administration @ US School of Computer Science	2008
Certificate in Oracle @ US School of Computer Science	2008
Higher Certificate In Software Engineering @ Salesianos de San Pedro	2008

RECOMMENDATIONS

Micheal McLoughlin - Development Team Lead @ MoneyMate

As a member of the development team Remo has been involved in every aspect of solution development. Remo works with a wide range of technologies. Is an invaluable member of the development team. He is organised, efficient and extremely competent. In addition, he has an excellent rapport with managers and colleagues alike.

Miguel Merayo - Senior Software Engineer @ Ezetop

Remo is one of those people who always wants to build good software, and he knows how to do it. He is a precocious developer, really up to date in technologies and best practices.

Robert Mulhall - CEO @ Lucca Leadership

Remo reported directly to me but had to carry out the work to suit our teams in Ireland, UK, Netherlands, Macedonia, USA, Australia and South Africa. This meant that he was working on a global website and local websites within the global website structure. It was a very challenging task and one that was badly needed by Lucca Leadership.

I found Remo to be professional and diligent in his work. He was always committed to his work plan and the organization and went above and beyond his role to help out when needed. Remo is a hard worker and was able to bring new ideas and ways of working to our organization. He has very good technical abilities and when he did not know how to do something he would research the solution himself.
